Subject: CHLA Community Health Needs Assessment
Date: Saturday, July 25, 2015 3:59:12 PM

Good Afternoon,

My name is Matthew Carter and I am a consultant with Children's Hospital Los Angeles. As required by state and federal law we are beginning our Community Health Needs Assessment to better determine how we may serve the community. I would love for the neighborhood councils to become an active voice during this assessment.

With that being said would it be possible to schedule a meeting so that we may be able to include the neighborhoods thoughts and opinions in our assessment?

Thank you for your time,
Matthew Carter
